

SALMAN TAWFIQ MOUSTAFA

JUNIOR FULL-STACK .NET DEVELOPER

Turning ideas into complete, production-style web applications — from database to browser.

+966 50 913 9545 | salmantawfeeq10@gmail.com | [linkedin.com/in/salmantawfiq](https://www.linkedin.com/in/salmantawfiq) | salmantawfiq.com

Riyadh, Saudi Arabia | Egyptian National — Valid Saudi Residence Visa (no sponsorship required)

PROFESSIONAL SUMMARY

Junior Full-Stack .NET Developer with a Bachelor's degree in Management Information Systems (MIS) and hands-on experience architecting and building complete web applications from concept to deployment. Skilled in ASP.NET Core, C#, Entity Framework Core, and SQL Server on the back end — including secure RESTful API design and database query optimization — paired with HTML5, CSS3, JavaScript, and Bootstrap on the front end, all grounded in object-oriented programming, SOLID principles, design patterns, and clean architecture. Brings practical IT experience from mandatory military service as an Information Systems Specialist, alongside seven independent full-stack projects spanning project management, e-commerce, healthcare management, and business web applications. Based in Riyadh with a valid Saudi residence visa, fluent in English and native in Arabic, and eager to bring strong technical fundamentals, fast learning, and a problem-solving mindset to a professional development team.

TECHNICAL SKILLS

Languages & Core — C#, JavaScript, HTML5, CSS3

Backend & Architecture — ASP.NET Core, ASP.NET MVC, Entity Framework Core, LINQ, RESTful APIs, Dependency Injection, Design Patterns, Object-Oriented Programming (OOP), SOLID Principles, Clean Architecture, CRUD Operations

Database — Microsoft SQL Server, SQL, Stored Procedures, Database Design, SQL Server Management Studio

Frontend — HTML5, CSS3, JavaScript, Bootstrap

Tools & Practices — Git, GitHub, Visual Studio, Visual Studio Code, Postman

PRACTICAL EXPERIENCE & PROJECTS

No formal employment history to date — the projects below are complete, independently built full-stack applications demonstrating production-style development practice.

All projects were version-controlled with Git and GitHub, and built following object-oriented programming and clean architecture principles.

◆ TaskFlow — Full-Stack Project Management System

Technologies: ASP.NET Core, C#, SQL Server, Entity Framework Core, HTML5, CSS3, JavaScript, Bootstrap

- ▶ Engineered the end-to-end system using ASP.NET Core, C#, and Entity Framework Core for the backend, with SQL Server for reliable data persistence.
- ▶ Delivered a secure, intuitive platform empowering organizations to manage projects, teams, and daily tasks efficiently.

◆ Nashvell — Full-Stack Web Application

Technologies: HTML, CSS, JavaScript, Bootstrap, ASP.NET Core, C#, SQL Server

- ▶ Architected and built a complete full-stack application, pairing a responsive front end with a robust, maintainable back-end.
- ▶ Implemented dynamic features, seamless database integration, and core business logic end-to-end.
- ▶ Crafted a polished, responsive interface optimized across desktop, tablet, and mobile.

◆ Dental Clinic Management System — Full-Stack Desktop-Style Application

Technologies: Electron, React, TypeScript, Node.js (Express), PostgreSQL, Prisma, WebSocket, Supabase

- ▶ Built a complete two-device clinic management system connecting reception and doctor workstations in real time over WebSocket.
- ▶ Implemented patient records, prescriptions, billing with partial payments, inventory management, financial reporting, and a live TV waiting-room display.
- ▶ Added role-based access control, automatic backups, and Arabic RTL support, with the desktop app synced to an online booking system via Supabase.

◆ Dental Clinic Website & Online Booking — Full-Stack Web Application

Technologies: Next.js 14, React, TypeScript, Supabase (PostgreSQL), Row-Level Security

- ▶ Built a fast, Arabic-first, fully responsive clinic website with services, doctor profile, FAQ, and contact pages.
- ▶ Developed a booking wizard (service → date → time → details) showing live appointment availability from Supabase, with double-booking prevented at the database level.
- ▶ Synced online bookings automatically to the clinic's desktop management system, alerting reception staff instantly.

◆ White Wing Dental Center — Landing Page

Technologies: HTML5, CSS3, Vanilla JavaScript

- ▶ Designed and built a modern Arabic (RTL) landing page for a dental and implant center from scratch, with no frameworks.
- ▶ Implemented booking and WhatsApp calls-to-action, animated counters, service cards, a validated appointment booking form, and scroll-reveal animations.
- ▶ Delivered a fully responsive layout with an accessible mobile menu using CSS Grid and Flexbox.

◆ Halwani Elmsry — E-Commerce Platform

Technologies: Firebase Firestore, HTML5, CSS3, JavaScript, Bootstrap

- ▶ Delivered a full-featured e-commerce platform for a confectionery business, pairing a customer-facing storefront with a powerful admin dashboard for managing products, categories, and orders.

◆ Portfolio Website

Technologies: HTML5, CSS3, JavaScript, Bootstrap

- ▶ Designed and built a fully responsive personal portfolio with a clean, modern interface and smooth cross-device navigation to showcase skills, projects, and certifications.

KEY STRENGTHS

- ▶ Full ownership of the stack — architects and builds complete web applications end-to-end using ASP.NET Core, C#, SQL Server, and Entity Framework Core on the backend (including secure RESTful API design and database query optimization), paired with HTML5, CSS3, JavaScript, and Bootstrap on the frontend.
- ▶ Practical IT experience beyond the classroom — served as an Information Systems Specialist during military service, managing local systems, providing technical support, and safeguarding data integrity in a high-responsibility environment.
- ▶ Strong engineering fundamentals — consistently applies OOP, SOLID principles, design patterns, and clean architecture across projects, with Git and GitHub for version control.
- ▶ Certified on the exact stack used in practice — three Microsoft/CLS certifications in ASP.NET Core, C#, and HTML5/JavaScript/CSS directly reinforcing hands-on project work.
- ▶ Immediately available in Saudi Arabia — based in Riyadh with a valid residence visa, requiring no relocation timeline or employer sponsorship.
- ▶ Bilingual and adaptable — fluent in English (B1 diploma) and native in Arabic, with a fast-learning, problem-solving approach to new technologies.

EDUCATION

Management Information Systems (MIS) — Bachelor's Degree

Misr Higher Institute for Commerce and Computers | 2020 – 2024

TIMELINE SINCE GRADUATION

- ▶ 2024 – 2025 — Military Service, Information Systems Specialist: Completed mandatory military service within the Information Systems Branch; managed local systems, provided technical support, and safeguarded data integrity, while building strong discipline and problem-solving skills in a high-responsibility environment.
- ▶ 2025 – 2026 — Frontend Web Development Foundations: Built a solid foundation in responsive, semantic frontend development — structuring pages with HTML5, styling with advanced CSS3 layouts, and implementing interactivity with modern JavaScript — alongside professional certifications in the ASP.NET Core stack.
- ▶ 2026 – Present — Full-Stack .NET Development Practice: Applying ASP.NET Core, Clean Architecture, and secure RESTful API design to independent full-stack projects (see Practical Experience & Projects above), with a focus on clean, maintainable code and efficient database design.

CERTIFICATIONS

- ▶ ASP Full Stack Developer — CLS Learning Solutions (Dec 2025 – Jun 2026)
 - Covered: Microsoft SQL Essentials, C# Programming, Programming in HTML/JavaScript/CSS, Developing ASP.NET Core MVC Web Applications, ASP.NET Core Web APIs
- ▶ Developing ASP.NET Web Applications — Microsoft, Course 20486
- ▶ Programming in HTML5, JavaScript & CSS3 — Microsoft, Course 20480
- ▶ English Language Diploma, Intermediate Level (B1) — Fluentcore Learning (March 2026)
- ▶ Saudi Council of Engineers (SCE) Membership — Specialist, Management Information Systems (since August 2026)

LANGUAGES

Arabic — Native English — Fluent

CERTIFICATE APPENDIX

Supporting documents for the certifications listed above.

1. Programming in HTML5, JavaScript & CSS3 — Microsoft (Course 20480)

Certificate

0104780

This is to certify that

SALMAN TAWFIQ MUSTAFA MUSTAFA

Has successfully attended and completed

ASP Full Stack Developer

Microsoft SQL Essentials - C# Programming - Programming in HTML,
JavaScript & CSS - Developing ASP.NET Core MVC Web Applications
ASP Core Web APIs

Within the period from 25/12/2025 till 25/06/2026

Fatma El-Sayed

PRESIDENT'S SIGNATURE

FLUENTCORE LEARNING
Unlock Your Potential with English

DIPLOMA

ENGLISH LANGUAGE

This certificate is awarded with immense pride to

SALMAN TAWFIQ MUSTAFA

For successfully completing the English Language Diploma at the Intermediate Level (B1). This certificate honors his dedication to mastering language proficiency, communication skills, and academic excellence.

Certificate No: FL-B1-MAR26-068

March 2026

5. Saudi Council of Engineers (SCE) — Membership Certificate

	
Membership no.: 1283609	عضوية رقم: 1283609
 تسجيل عضوية Membership Certificate	
In accordance with the Regulations of Saudi Council of Engineers by Royal Decree M/36 Date 26/9/1423 H the details below has been Registered	بناءً على نظام الهيئة السعودية للمهندسين الصادر بالمرسوم الملكي رقم م/٣٦ وتاريخ ٢٦/٩/١٤٢٣ هـ. فقد تم تسجيل الموضح بياناته أدناه.
Membership Category: Specialist	سلمان توفيق مصطفى مصطفى
Specialization: Management Information System	فئة العضوية: أخصائي
Membership Start Date: 8/15/2026	التخصص: نظم المعلومات الإدارية
	تاريخ بداية العضوية: 8/15/2026
This Certification is valid until: 15 August 2027	هذه الشهادة صالحة إلى تاريخ 13 ربيع الأول 1449
	 Digitally signed
 الأمين العام مساعد بن عبدالله العتيبي
